

VII. International Qualifier Dance Competition

01-02th February 2025.

New location: **ANGYALFÖLDI SPORTKÖZPONT H-1139 BUDAPEST, ROZSNYAY UTCA 4.**

You could prepare for a two-day competition:

February 1th 2025 (Saturday): HIP-HOP, OPEN, BALLROOM DANCES

February 2th 2025 (Sunday): SHOW, SPECTACLE DANCES, CONTEMPORARY, CHEERLEADING...OTHER STYLES

In our competition there are no losers. Every competitor gets a classification from the jury:

- gold
- silver
- bronze

Beside one of the classifications everyone gets a medal too and the special awards come with an unique cup. You could be beginner, advanced or professional dancer: everybody wins.

To our competition there are several goals. Every participant will see that on which level they really are so the next time when they participate in another competition one could easily place oneself amongst the competitors. Furthermore we would like to help in the raising of the backup dancers without being followed by any negative experience.

Dance, success, growth, experience gaining is our motto.

Our system – as in every other competition – **also an open system so everyone can participate.** The rating of the performers happens in a scoring system.

General Rules

We will introduce the annual registration fee for each school from 2023, which means an one-time payment of HUF 10,000.

New rule for the "P" professional knowledge level:

In addition to the qualifying competition, we are announcing a ranking competition in the professional category. There will still be classification in the "A" Amateur and "FP" semi-professional categories, all competitors will receive a gold, silver, or bronze classification, there won't be change in the classification. However, dancers for whom this may not be enough compete in the "P" professional category. Therefore, we will announce a ranking among dancers with this level of knowledge, also based on a scoring system. If there isn't opponent in the given category, we give a RATING as usual (Gold / Silver / Bronze).

Levels of knowledge (further description in the competition regulations):

- „A” (amateur) level: This category is for those who have less experience at stage performances and racing.
- SP” (semi-professional) level: Dancers who have stage routines but have only been dancing for a few years.
- „P” (professional) level: Those who have grown out the semi-professional level, have enough competitive experience and stage routine and would take their place in any Hungarian championship.
